Notes:

1. This helicopter is located in Southern Oregon. We would be happy to pick it up and fly it to our facility in Bend to conduct the overhaul.
2. Estimated time of completion is 13 weeks from the time the aircraft arrives at our facility. Work will not start until down payment is received.
3. Terms: Payment of the kit price and core charge in advance. Balance due on completion prior to delivery or shipment. Core charge refunded to purchaser from Robinson upon evaluation of returned parts.
4. We can arrange crating and shipping to an international destination, or if you arrange the shipping we can prepare the helicopter for shipping after completion of the overhaul. There may be an additional handling charge to prepare the aircraft for shipping.
5. Upon completion of inspection items, additional charges may be required to correct non-airworthy findings.
